

# Nitro-B<sup>TM/MC</sup>

4-0-0 + 10% B

Liquid nutrient  
for UAN solution

cultivating *innovation*

**Nitro-B** is a liquid nutrient for the soil that contains 10% of boron. It is specifically formulated to provide boron at side-dressing. Incorporated into a urea and ammonium nitrate (UAN) solution, to liquid starters and other agricultural inputs, it supplies boron in the same passage to be assimilated by the plant through the root system. Adding **Nitro-B** allows the addition of boron to the UAN solution. It must be applied based on soil or tissue analyses or as soon as deficiency symptoms appear. **Nitro-B** offers the advantage of applying boron at the right place, at the right rate and at the right time to ensure optimal crop performance. For more information on **Nitro-B**, consult your agronomic adviser.

## agronomic benefits

- Formulated to provide boron at side-dressing
- Source of readily available boron during corn pollination
- Helps in the transfer of sugars and nutrients

density **1.330 kg/L**

## Guaranteed minimum analysis

Total nitrogen (N)	4%	Boron (B) (actual)	10%
--------------------	----	--------------------	-----

## Recommendation of Nitro-B (10% B)

Boron soil analysis (M III)* in ppm	kg/ha	L/acre	L/ha	Application timing and remarks
0.7 ppm and less	0.5	1.5	3.7	<b>Nitro-B</b> can be added to all crops where nitrogen is supplied by UAN solution, liquid starters and other compatible agricultural inputs.
0.8 ppm to 1.5 ppm	0.3	0.9	2.2	<b>Nitro-B</b> allows boron to be added to the UAN solution, liquid starters and other compatible agricultural inputs. Quantity to be applied is based on soil analysis values.
1.6 ppm to 2.4 ppm	0.1	0.3	0.75	

\* M III = Mehlich III soil test results

Apply at suggested rates.

**Storage and disposal.** Do not store this product below 10°C or above 30°C. Do not pile up more than three containers. **Keep out of the reach of children and pets.** Keep container tightly closed in a well-ventilated area. Do not apply directly to water streams and ponds. Do not contaminate water by rinsing equipment or by waste disposal.

**Safety.** Always wear gloves and safety glasses when handling the concentrated product. **In case of contact with eyes,** flush with plenty of water. Seek medical assistance. **In case of contact with skin,** wash with clean water. **In case of ingestion, if victim is conscious,** give two glasses of water and induce vomiting. Seek medical assistance.

**Caution.** This product contains boron and must be used as stated by this label. It may prove harmful when misused. May damage fertility or the unborn child.

**Guarantee.** The vendor's liability will be limited to the terms of this label. The buyer will then be responsible for all risks and damages to persons or properties resulting from the use of this product, and hereby accepts these conditions.
